Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

this is just another way for government to stick its hands in our pockets.. STAY OUT... we work hard for our monay and are taxed in ever way possible now . We don't need to be taxed any more... all americans have to work with in thier own means . i sugest you do the same.

I use maybe 1 hour a month on my wireless that is only for calls where a normal phone is not at hand, or for emergency.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
